### **The Healthcare Credit Union System Releases Mobile App, WebCU Mobile**

Dublin, OH (3/18/15) – The Healthcare Credit Union System has released its brand new mobile app, WebCU Mobile. Members of its two divisions, Ohio HealthCare and MedPro, are now able to access their accounts via their smart phones or tablets in an easy to use app.

WebCU Mobile allows members to view their account balances, view transaction history, make transfers between accounts, make loan payments, and even deposit a check with the snap of a photo. The app also offers a locator for shared branches and free ATMs.

“Members have been asking about a mobile app for some time,” says Christy O’Connell, COO of the Healthcare Credit Union System. “It was important to us that we deliver a quality, easy to use app. WebCU Mobile is just that. Members are excited about it. We’ve been told it is sleek, well designed, very intuitive and polished.”

WebCU Mobile adds to the credit union’s suite of digital convenience products. In the past few years, they have added account to account transfers, account alerts, person to person transfers, and remote deposit capture. A brand new website will also be released later this month. The Healthcare Credit Union System serves more than 12,000 healthcare professionals and their families throughout Ohio.

###

*The Healthcare Credit Union System is a registered trade name of Ohio HealthCare Federal Credit Union. MedPro and Ohio HealthCare are divisions of the Healthcare Credit Union System. It is a full-service financial institution serving healthcare professionals throughout the state of Ohio.
